** ARGENTINA. 28193 CW, Oct 18 at 2344, warble tone, VVV DE LU2DT/B - WGB list: ``28193.0 LU2DT - Mar Del Plata BA ARG GF11fx - #0/1/3 (10 Oct 2025) Note: 18" carrier + VVV de ID + grid 10" off - Pwr 10w`` - QRZ.com: ``LU2DT Argentina flag Argentina, Radio Club MAR DEL PLATA, Calle Almirante Brown 4255, MAR DEL PLATA, BA 7600, Argentina`` (Glenn Hauser, OK, WOR)

** ASCENSION. 21645, Oct 19 at 1450, JBA carrier is the OSOB and thus also the SSOB. Per EiBi it`s BBC in Hausa, irregular at 1300-1700; Aoki and HFCC agree, except it`s on Day 7 = Saturday, but this is Sunday = Day 1 (Glenn Hauser, OK, WOR)

** BRAZIL. 28385 USB, Oct 21 at 2210, PU1JSV, Rio, calling CQ 10 and several American answers. QRZ.com: ``PU1JSV Brazil flag Brazil, Jose Silva, Rua Jorge Luiz 7, Rio de Janeiro, RJ 21044540, Brazil`` -- Lots of phone on 10m now including CCI/pileups, or contacts talking over each other, failing to say ``over`` (Glenn Hauser, OK, WOR)

** CANADA. 730, Oct 16 at 0729, ``CKDM`` ID immediately upon tune-in, plugging its player app, i.e. Dauphin MB, U2 10/5 kW. Of course, night pattern supposedly goes north only (Glenn Hauser, OK, WOR)

** CHINA. 11760, Oct 20 at 2205, continuous Chinese music into UTwente. It`s the CRI ``Portuguese`` service from Xianyang 59 site; no QubaRM as RHC is not on even unto Ft Lauderdale remote. SAWA both (Glenn Hauser, OK, WOR)

** CHINA. 15125, Oct 18 at 2359, S9+10/20 in English with flutter, from ``CGTN Radio``, into news Oct 19 at 0000; thought it might be Mali relay as at other times, but now it`s Beijing 572 site for SE Asia, so off the back to here. Don`t they know, like Aoki, we prefer the much more mellifluous ex-name China Radio International?? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6010.0, Oct 20 at 0546, song at S9. R. Inconfidência has been reported recently reactivated, but it`s normally perceptibly off-frequency and this is not - but nothing else listed. EiBi shows Brasil 24 h; Aoki at 09-06 - and also long-gone XEOI at 22-05! (Glenn Hauser, OK, WOR)

** COLOMBIA. Re 6010.0, not Brazil: ``6010 kHz reactivada LV de tu Conciencia, aunque en ajustes de su señal, operando con alrededor de 3.8-4 kw`` says Rafael Rodríguez = The Voice of Thy Conscience reactivated on 6010, altho adjusting its signal, operating with around 3.8 to 4 kW (Glenn Hauser, OK, WOR)

** COLOMBIA. Re my 6010 log, another reply, from Ron Howard: ```Hi Glenn - Yes, LV de tu Conciencia testing on 6010 kHz, per Rafael Rodríguez R., on CADENA DX (Oct 20, Monday, at 5:35PM): ``6010 kHz, LV de tu Conciencia, is testing broadcasts following recent transmitter repairs and antenna system adjustments. Full reactivation is expected in the coming days, so it can go on-air. The tentative schedule is 22:00 to 10:00 UTC``

They have a nice eQSL, that I recieved back in April 2023 -

Me, too, and what about their other station on 5910? FWIW, tentative HFCC B25 shows on 5910 nothing but a Vatican placeholder 24h standby for IRDR. See:

** CUBA [non]. As of Oct 22 at 0634 UT, I have realized that Cuban whoopers, or wobblers, or squeakers as I have sometimes called them, have not been heard for almost two months during routine latenight MW bandscans. Last noted under WWL 870 was August 16; under WHO 1040 on August 19; and once under WSB 750 on August 26 (Glenn Hauser, OK, WOR)

** CUBA. 5990, Oct 18 at 2340, S9+10 of suptorted modulation, only peaks audible, during CRI ``English`` relay, Commies vs Commies! Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 6000, Oct 18 at 0629, RHC still on in English, suptorted, S9+10. And at 0633 also on 9710, S9+10 with loud but distorted signal, SAWA; ``Ed Newman`` commencing `The Mailbag Show` at 0634 UT Sat. Are that day and time going to stick? (Glenn Hauser, OK, WOR)

** CUBA. 9710, Oct 19 at 0006, RHC English with good modulation and S9+20/30, but 6000 presumably //, S9+10 of dead air. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 11760, Oct 19 at 0532, RHC English S8/S9 good mod, unusual this late; no 9710, but // 6000 S9+25 with fair mod (Glenn Hauser, OK, WOR)

** CUBA. 11760, Sun Oct 19 at 1456, RHC Spanish S9 here, 13780 S6/S7, and 15230 OCDA or JBM direct. By 1519, Knoxville SDR gets Esperanto S8/S9 on 11760 from Radío Havano Kubo, nothing on 13780, 15140 or 15230. In a biweek after Yankee Imperialist DST finishes, should be one UT hour later (Glenn Hauser, OK, WOR)

** CUBA. 6000, Oct 20 at 0142, S9 of dead air, at 0151 no signals on 11760 or 9710 or 13780. Something`s always wrong at RHC (Glenn Hauser, OK, WOR)

** CUBA. 9580, Oct 20 at 0150, S9+10 of dead air in English from CRI relay. Something`s always wrong at RadioCuba (Glenn Hauser, OK, WOR)

** CUBA. 11760, Oct 20 at 1850, RHC Kriyol only here, S6/S8 into Ft Lauderdale SDR, keeps going with music until 1904 IS, Spanish ID, 1905 finally open English; feature later in hour to be ``Scientific and Medical Review, every Monday``. Revamped website radiohc.cu lax any SW frequency info and any detailed program info in English; Kriyol is not even on the drop-down list of languages. SAWA (Glenn Hauser, OK, WOR)

** CUBA. 15230, Oct 21 at 1447, S9 of dead air, or JBM? SAWA. But RHC S9+5 in Spanish on 11760 at 1449, seems // much weaker S6/S7 JBA on 13780 (Glenn Hauser, OK, WOR)

** CUBA. 15140, Oct 21 at 1930, RHC amid English hour, S9+25 with continuous squeal out to +/- 5 kHz on waterfall at Georgia SDR, cannot get rid of it even by AMN = AM narrow tuning. Also direct at S9+5. Always on this frequency but same defect never heard on any other RHC. SAWA (Glenn Hauser, OK, WOR)

** CUBA [non]. 15460, Oct 16 at 1904, R. Martí/LV del Trumpismo on new frequency, // 13605, 11930, 11860. 15460 had been testing with jazz music previously, and I clinched it as Greenville as it was // RM frequencies before 1600 (Glenn Hauser, OK, WORLD OF RADIO 2317)

** CUBA [non]. 15460, Oct 17 at 1710, no signal into Ft Lauderdale SDR, unlike yesterday new Grimesland for R. Martí/LV del Trumpismo,

while 13605, 11930 and 11860 are on and audible (Glenn Hauser, OK, WOR)

** CUBA [non]. 15460, Oct 20 at 1752, still no signal from R. Martí, where it appeared once after some jazz tests, but very much on 13605, 11930, 11860, into Ft Lauderdale SDR (Glenn Hauser, OK, WOR)

** EAST TURKISTAN. 13640, Oct 20 at 0152, informal W&M chat in American English, so must be CRI; yes, Kashgar to Europe at least, but S9+20/30 way over here with some flutter (Glenn Hauser, OK, WOR)

** GERMANY. 9670, Sat Oct 18 at 1700, final repeat of this month`s `Uncle Bill`s Melting Pot` via Channel 292, 9670, fairly good into UTwente, and Carlow, Ireland SDR; at 1715 marred by continuous het less than 1 kHz on lower side, so USB and narrowed tuning required. Circa 1745 mentions that it`s music from Mongolia (Glenn Hauser, OK, WOR)

** GERMANY. Uncle Bill Tilford replies to my log of his Melting Pot on Channel 292: ``Thanks for listening, Glenn. I will be pausing 6070 and 9670 (while adding an additional on 3955) until the semiannual traffic jams on and near the first two frequencies sort themselves out. The Kyrgyz jaw-harp piece must have sounded even more exotic than intended with some of the QRM in back of it. :)`` (Glenn Hauser, OK, WOR)

** GERMANY. 11610-11615-11620, Tue Oct 21 at *1959, DRM carrier on, into Tangier SDR - It`s Music4Joy as on MBR sked from Nauen, Germany, toward W Africa, Tue & Thu only at 20-21. Good S8 signal as music starts at 2000, very repetitive with heavy beat, unseems notably joyful to me. I`ve had enough before 2015. SNR 18 dB, 19.04 kbps, audio keeps cutting out via this SDR. No other WAf Kiwis are currently active. Captioned ``Electronic music entertainment station!`` - I`m checking this as in EiBi after noticing their upcoming B25 schedule on different frequencies, from MBR sked via Alokesh Gupta, Tue & Thu only; each ends with: 35 261025 280326 NAU 100* M4J Mul

** INDIA [non?]. 15280, Oct 17 at 2340, S9/+20 of dead air with very heavy Doppler flutter. The Chinese sesquihour of Akashvani/AIR via Bengaluru is about to start, and it is subject to jamming. Also during much longer hours, SOH and jamming against that could be here. Or, could this be the ghost of KGEI? Many other frequencies in the higher bands are also Dopplerfluttery, transpolar propagation disruptions (Glenn Hauser, OK, WOR)

** ITALY. 1323, Sun Oct 19 at 2057, surprised to hear Wavescan already starting, on IRRS via AM Italia, as I bring up UTwente about to change it to 15770 for WOR. Indeed, WS on NEXUS/IBA sked to start at 2100. I`ve not noticed WOR commencing before its scheduled hours (Glenn Hauser, OK, WOR)

** KOREA NORTH [non]. 9705, Oct 21 at 1443, Japanese or Korean music and talk, S9+5 direct. It`s Furusato no Kaze in JJ at 1430-1500, 300 kW, 2 degrees from TAIWAN, per HFCC and it`s handled by ENC = Encompass (Glenn Hauser, OK, WOR)

** MEXICO. 1190, Oct 16 at 0715 UT, amid Mexmx, ID as ``--  Radio, ... éxitos`` - probably XEPZ Ciudad Juárez. ** NORTH AMERICA. 6924.9 AM, Oct 20 at 0143, ``KLSR1650.com`` and Hallowe`en talk, S9+10, music. Reported here as Liquid Radio with KLSR 1650 simulcast: https://www.hfunderground.com/board/index.php/topic,152272.0.html Despite the call and MW frequency there is no such station on the air but FAQ implies it operates legally online only. Off by next check 0206 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 15400, Oct 20 at 1543, Station YHWH is JBA in rare daytime broadcast, tnx to tip from Rick Barton, AZ, from 1505. Tony Pavick, BC, also caught him Oct 15 at 2000 on 15410 (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11915, Oct 22 at 1720, JBA carrier, presumed Station YHWH tnx to tip from Rick Barton, AZ, who was hearing him at 1705, and: ``By 1722 was doing those long deep fades where it is hard to know if he went off, or just at the bottom of a fade`` --- ``Thanks, Rick! ** OKLAHOMA. 1270, Oct 19 at 0615 UT, Spanish dominating with music, no longer KFLC TX, non IDs as `Ritmo 107.9`, also 0632, 0702 finally full ID in English as KRXO Claremore, back to Spanish music. Note that the original and still KRXO-FM is 107.7 in OKC, unrelated programming, sports talk in English. 107.9 is K300CY in Broken Arrow, some distance from Claremore, but both rimming the Tulsa market (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1680 kHz, Oct 17 at 2010 UT, Virtual DJ Radio is again modulating pop music, peaking at the crossroads of S Van Buren, and W OK Garriott in Enid. This happens also to be the location of the NO KINGS protest Oct 18 at 15-19 UT, yes, Champlin Park, even in Enid (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 1680, Oct 22 at 2230 UT, Virtual DJ Radio, relay in Enid is OFF, nor on ex-1670 or any other X-band channel. Had been extremely reliable since  first discovered Nov 29, 2024, signals always peaking near the junxion of US 81 and US 412 (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.5 MHz, Oct 17 at 2015 UT, the unID low-power pirate playing pop music is still active with stereo pilot on, but mono

sound, audible only for a few blox around the crossroads of S Cleveland and W OK Garriott in Enid (Glenn Hauser, Enid, WOR)

** ROMANIA. Re 11800, RRI not appearing on scheduled frequencies, Wolfgang Bueschel replies:

``FYI to understand RadioCom Romania and RRI foreign sce in A-25 and B-25 now ask our German/Romanian DXer Alex Busneag, ab27@arcor.de about that ROU behaviour recently,
when RRI Bucharest limited foreign sce on SW to a single frequency each of their two bcast centers, always according of their azimuth / meterband possibilities. 73 wolfie  df5sx wwdxc:

Re:  Radio Romania International.  {translated by wb.}

Since August 1, 2023, RRI has been broadcasting "temporarily" on only one frequency (instead of the usual two simultaneously) per target area. However, two frequencies per broadcast will continue to be coordinated and programmed into the respective transmitter controls.

In Galbeni and Tsiganeshti, only one of the two transmitters will actually be switched on. In the event of maintenance work or defects in the transmitter that was actually intended to be used, the other transmitter will be switched on as a replacement - with the "second frequency" that has already been programmed.

These alternative frequencies can best be found in the HFCC table: <https:\\new.hfcc.org/data/schedbyfmo.php?seas=A25&fmor=ROU>

In Galbeni, all broadcasts have apparently been running on the "other" transmitter for about three days and thus on the other frequencies, e.g., Romanian 1300-1500 UTC temporarily on 17780 kHz instead of, 15340 kHz. So as long as the announced nightly 9740 kHz 0300-0400 UT RRI English towards NoWeAM via Galbeni site is not working, the program will be available on 11620 kHz (or perhaps 17790 kHz). ** ROMANIA. 11800, Oct 17 at 2158, RRI IS, S6/S8 into Georgia SDR, a bit stronger than Turkey; 2202 into UTwente, English S6/S8 but ``hollow`` sounding, not as strong as expected (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Sun Oct 19 at 1454 direct, and 1616 into Knoxville SDR, only one REE frequency is on, nothing on 15520, 15500 or 15390. On Sundays all four should be running after 1400 (Glenn Hauser, OK, WOR)

** SPAIN. 17715, Wed Oct 22 at 2203, no REE signal into UTwente, and only S7/S9 into Maryland SDR, and NOT in English, rather Spanishish. So much for our only weekly dose? 15520 & 15390 even worse JBA and no 15500. But next check at 2242, 17715.0135 achieves S5/S7 into Maryland, but only poor and by now *is* in English, MQ reciting imminent B25 frequencies, including 9680, typo? instead of 9690, should it really be on air at all. By then, English should be at 23-24 Wednesdays only (Glenn Hauser, OK, WOR)

** TURKEY. 11785.010-, Oct 17 at 2157, VOT IS & ID, S5/S7 into Ft Lauderdale SDR, S5/S7 into Athens GA. At 2237 into UTwente when measured, S9+45/50. 2249 `Did You Know That` with Efsun about an elegant view. 2253 s/off, 2254 IS to 2256*

VOT English B25, per HFCC:
1330-1430 13635 WEu;
1730-1830 9660 Iran to India;

** U S A. 5085, Oct 21 circa 0205, WTWW missing, but on at 0215. As for 5920 switching to 9930, George says that`s currently at 7 am CDT = 12 UT, but may change in November (Glenn Hauser, OK, WOR)

** U S A. 7490 -66 Hz = 7489.934, Oct 17 at 2353, WBCQ with FKB, wraps up a bit early for 2359 dead air, ID; Oct 18 at 0000 announces that following AAAWWW originally aired Sept 19, 2025; never mind. Meanwhile, no signals before 2400 or after 0000 on 3265, 5130. 6160 at first JBA presumed China, with RTTYditty plus, then no carrier. Now 9330 is on and the only // to 7490- (Glenn Hauser, OK, WOR)

** U S A. 17790, UT Mon Oct 20 at 0129 still a VG signal from WRMI, really aimed to S America? Concluding RTI in Spanish, but at 0154 I

notice it`s not Slovakia in English but gospel huxter; grid shows RSI on UT Tue-Sat only. // much weaker 5800 (Glenn Hauser, OK, WOR)

** U S A. 9955, Oct 22 at 1759, JBA carrier, must be WRMI which is supposedly on internet only from 16 to 21 UT System C during RAE Argentina in German. Via Georgia remote, at 1805, pop music S9+25; 1829 WRMI ID in English, more music, songs in unknown and unannounced language and // the stream. Separate RAE skedblock does not show any such transmission on any frequency or System. Searching entire program grids does not find 9955 on any other System during these hours. Something`s odd at Okee. By next check at 2009, 9955 really is off (Glenn Hauser, OK, WOR)

** U S A. 17525, 15150, 9275, as of Oct 19, WMLK has been missing for several days at random chex, morning, afternoon, evening. No loss: they are mired in the past preaching of DEJOM (Glenn Hauser, OK, WOR)

** U S A. 780, Oct 16 at 0642 UT, WBBM following 0640 StarDate, correct timecheck as 1:42 rather than 3 minutes fast (Glenn Hauser, OK, WOR)

** U S A. 780, re inaccurate timechex heard on WBBM Chicago, a lot more: ``WBBM overnights --- Mr. Hauser, WBBM-AM /105.9FM from 10pm-12midnight (CLT) gives their time as "xx minutes after the hour." At midnight, they replay "The Noon Business hour." At 1 and 3 AM, the 10PM CLT hour of WBBM is repeated. The 2 and 4 AM hours are repeats of the 11PM CLT news hours.

The traffic reports overnight are anything but live! Road/lane closures are all that is covered. Weather has generic forecasts. No actual temperatures are given. Too, when things don't line up (in automation) there are plenty of pauses and dead air from time to time.

What is telling is at 5:08AM CLT when the first traffic report for AM drive is given, you'll hear "an accident that happened around 2, this morning" or similar, that was never covered in pre-recorded traffic reports, in Market #3!

The newscaster is on live or recorded from 7PM to 5AM! https://tvradioschedules.fandom.com/wiki/WBBM_Newsradio_Program_Schedule (outdated, but shows replay hours.) There is no talent schedule for the radio station on their website. Chicago's All News Station - WBBM-AM | WBBM Newsradio 780AM https://www.audacy.com/wbbm780 Hope this helps a little. John J. Rieger, DX-midAMerica 24/7 non-stop dx - since 1981!`` Certainly does, Tnx! (via Glenn Hauser, WOR)

** U S A. 1060 kHz, Oct 19 at 0625 UT, ID for 93.9. WTFDA FMDB shows the only  match is KNLV, Ord NE, with K230BR. NRC AM Log agrees and KNLV is U1 1000/23 watts. Ord is NW of Grand Island in central NE, also the source of NDB ODX, more often audible on 356 kHz (Glenn Hauser, OK, WOR)

** U S A. 1090, Oct 20 at 0610 UT, gospel music from KAAY Little Rock AR. Originally U2 50/50 kW, direxional only at night, with a tight figure-8 pattern slightly CCW from N/S, with nulls toward Tijuana and Baltimore, but surely much less now than 50 kW: https://radio-locator.com/cgi-bin/pat?call=KAAY&service=AM&h=N It`s dominant here but need LSB tuning to avoid IBOC on 1093 from 1080 KRLD!

Those needing Arkansas for MW DXing from all 50 states should be aware that KAAY, which has been running fairly high power nighttime omnidirectionally after loss of a tower, will soon implement their

nighttime construction permit for 3.4 kW and a figure 8 pattern on the same alignment as their old 3 tower 50 kW pattern.

Note: 1650 KFSW ``Fort Smith`` really transmits from Oklahoma: https://radio-locator.com/cgi-bin/pat?call=KFSW&service=AM&h=N (Glenn Hauser, OK, WOR)

** U S A. 1340 kHz, Oct 19 at 0617 UT, ads mentioning Springfield, Branson, ramseysolutions.com, stays atop graveyard. Presumably KICK Springfield MO (Glenn Hauser, OK, WOR)

** U S A. 1431.0 kHz, Oct 19 at 0009 UT, het caused by WYKG, Covington GA, easily audible without even trying: shows what 212 watts can accomplish on a ``clear`` frequency. At 815 miles, 3.8 miles per watt, and it`s somewhat clockwise from due east. Now to DX their FM translator with an enviable callsign, W288DX, 105.5, ``The King``! BTW, if you enter DX in the callsign field and search https://db.wtfda.org/ you`ll get 83 hits mostly USA (Glenn Hauser, OK, WOR)

** U S A. 1560, Oct 19 at 0700 UT, 2:00 TC and Town Hall News; English talk has been overcoming usual Vietnamese KGOW TX. Besides a daytimer in WV, NRC AM Log shows THN on KTUI Sullivan MO, U1 1000/25 watts. Sullivan is NE of Rolla on I-44 halfway to St Louis (Glenn Hauser, OK, WOR)

** VATICAN [and non]. 7305, Oct 20 at 0146, VR in Spanish with RCC stuff, S9+20/30 so I could easily believe it`s again relay by Greenville, violating Separation Of Church & State. No other Eurish signals on 7 MHz band except weak 7260 Turkey. But I suppose still direct; 9490 ISSoudun R. República also VG S9+30/40 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 293 MCW kHz, Oct 17 at 0627 UT, FBY, 25 watts at FairBurY NE is one of my most reliable LW NDBs; but now there is unreadable CCI from anunder one. DXinfocentre.com shows only two others anywhere, and I have heard both sometime in the past: UI, qUIncy IL 30 watts, and TOR, TORrington WY 50 watts (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 810.53, Oct 17 at 0624 UT, still that mystery carrier hetting 810.0 WHB. Anyone else hearing it? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1100 kHz, Oct 20 at 0608 UT, dead air from WTAM Cleveland? But then I hear weak C2CAM a few words behind adjacent 1110 KFAB as always. So under some other DA station? Maybe KDRY Alamo Hts = San Antonio TX, U2 10/1 kW. Same situation noted before (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1550.30, Oct 16 at 0650 UT, JBA carrier hetting 1550.0 stations. The het on minus side of 1550 has not been heard in months, thought to be XEREL, Morelia, Michoacán (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1550.30, Oct 19 at 0622 UT, mystery carrier again hetting 1550.0 stations (Glenn Hauser, OK, WOR)

UNSOLICITED TESTIMONIALS

``I just wanted to take the time to say thank you! I cannot get on the air very often, I listen occasionally via webSDR's owing to living in a flat and no antennas. I will, when time and WX allow go for a walk to a small patch of grass near me in the town and use a 7M tripod + 20M band V dipole antenna to use with a portable QRP HF rig. Listening to your podcast reminds me what it was like living in a noise free village as a teenager listening to the bands. One memory comes to me

of regularly hearing AFN (Armed Forces Network) on 873 KHz from Germany - a weak signal, but once the sun was fully down I could hear them battling through with a number of other MW stations, especially during winter months. Keep up the good work, it's very enjoyable to listen to. Dennis Smith, M1DLG``
